

Maths Curriculum News

Staff	Ms Soulsby, Mrs Grimes
Key Targets	All children have individual targets to work on this term. Key targets: <ul style="list-style-type: none">• Rapid recall of number bonds to 20 (eg $6+7=13$, $7+8=15$)• Know and recall quickly ALL the x tables up to 10x
Maths	Maths themes for Term 5 will focus on: <ul style="list-style-type: none">• Decimal place value (linked to money, measurement)• Graphs and charts• Measurement – length, time• Review calculation skills – addition, subtraction
How can you help?	Help your child learn their number bonds and times tables, especially those ‘tricky’ ones – they really do need to have instant recall. They are doing a great job at learning these – please keep up your support! Ask your child time related questions – e.g. what time is it now? What time will it be in 10 minutes...? Questions about the TV timetable – what time does your tv programme start, how long is it on for etc?
Homework	I aim to send homework home on a Monday. This should be completed and returned the following Monday. Children who repeatedly do not complete homework tasks will be asked to complete it during playtimes.
